

Making A Difference

Amber Lee- Housekeeping

Amber has been working for Halstad Living Center for 4 years this month. She is very versatile when it comes to her abilities, her main job is in housekeeping, but she is also able to work in the Dietary Department as well as a Certifies Nursing Assistant for the Nursing Department. The best part of her job is when the residents are happy with the way she cleans their room or with the help that she has given them. She feels very appreciated, and it makes her time here enjoyable. In her free time, she enjoys fishing, gardening and most of all baking. Some words of wisdom from Amber "Be kind and maybe you will get some banana bread". Thank you, Amber, for everything that you do for all of us!
